

# VIDEOVAULT WHITEPAPER

**Post Freely. Earn Instantly. Own Your Voice.**

## About VideoVault

VideoVault is a decentralized platform where creators can post freely, share content, connect with community and earn crypto without middlemen or algorithms deciding what matters. Powered by the UNCX token — the crypto fuel behind VideoVault's creator economy and decentralized infrastructure.

## About the UNCX Token

UNCX is the decentralized utility token powering VideoVault. It fuels tipping, content boosts, platform rewards, and creator payouts, ensuring the ecosystem remains creator-first and censorship-resistant. With deflationary mechanisms, governance power, and a transparent supply model, UNCX enables users to engage with content, support creators directly, and access premium features across the platform.

## Key Features

- **Post Freely:** No takedowns, throttling, or shadowbanning
- **Earn Instantly:** Creators earn tips and rewards in real time
- **Own Your Voice.** It's your content, your keys, your community
- **Token Tipping:** Viewers can tip creators with UNCX directly
- **Creator Vaults:** Automated smart contracts for earnings
- **On-Chain Identity:** Reputation built on contributions, not followers

## Roadmap to Mass Adoption

- **Phase 1: Launch & Community Building**
- **Phase 2: Listings on Solana DEXs & Marketing Push**
- **Phase 3: 🔥 100 Million Token Burn (Early Investors Positioned for Long-Term Growth)**
- **Phase 4: VideoVault Web3 & Mobile Platform Launch (Powered by UNCX Token).**
